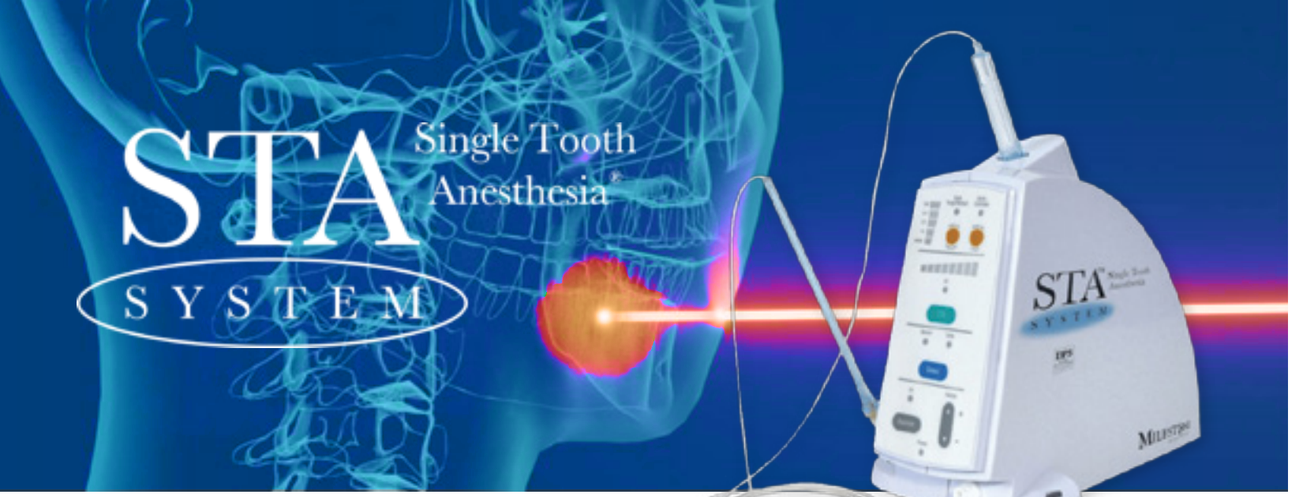
#KST-0921662

Sale
$125.99 ea.



HOW DOES IT WORK?

The STA Single Tooth Anesthesia® System works by controlling the flow rate and monitoring the exit pressure at the tip of the needle, allowing the dentist to deliver anesthetic at a **precise** and **consistent rate** below the patient's pain threshold - thus, optimizing predictability.

Our patented, DPS® Dynamic Pressure Sensing Technology monitors the exit pressure, and optimal needle position during the administration of local anesthetic. Visual and audible feedback from the unit aids in the identification of the correct location for injection.

The STA Single Tooth Anesthesia System can be used for:
- STA-Intraligamentary – Modified PDL
- Inferior Alveolar – Blocks
- P-ASA – Palatal
- AMSA – Palatal
- Supra-Periosteal – Infiltrations

MILESTONE SCIENTIFIC®

BENEFITS

COMPUTER CONTROLLED FLOW RATES

- Automatically controls and regulates flow rates and pressure during the injection
- Delivers anesthetic solution at a precise and consistent rate below the patient's pain threshold
- Consistent flow maximizes injection predictability

DYNAMIC PRESSURE SENSING TECHNOLOGY

- The dynamic pressure sensing monitors the exit pressure of the anesthetic for the optimal needle position during the administration process
- Visual and audible feedback from the unit aids in the identification of the correct location for injection

INCREASE YOUR BOTTOM LINE: GROW YOUR PRACTICE

- **100%** prefer it over the traditional syringe*
- **79%** are more likely to refer friends or family*
- **72%** would be willing to pay for the injection*
- **Minimal discomfort** and less concern about cross contamination eliminates patients concerns for future appointments

*Brattesani, Patient Survey 2015, *patients who experienced the STA Single Tooth Anesthesia System*

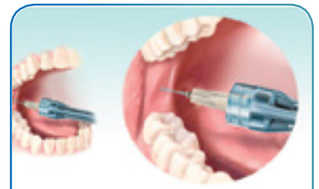
A WIDE RANGE OF INJECTION APPLICATIONS

STA Single Tooth Anesthesia® SYSTEM

STA-Intraligamentary Modified PDL

- Non-traumatic, modified PDL technique
- Comfortable injection both during and after the procedure
- Provides profound pulpal and gingival anesthesia for any procedure
- Allows patients to leave the appointment with no collateral numbness
- Immediate onset reduces total time to achieve anesthesia compared to mandibular block
- Enables bi-lateral mandibular procedures in one visit

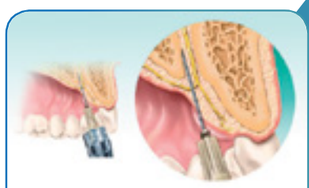
30 gauge ½˝



Inferior Alveolar Blocks

- Multi-cartridge feature enables use of multiple carpules with only one injection
- Hand-piece enables BRIT which eliminates needle deflection
- BRIT ensures needle gets to target site more effectively
- Reduces number of missed blocks
- Can enable faster onset

27 gauge 1¼˝



P-ASA Palatal

- Comfortable injection – ControlFlo eliminates the 'burst effect' in dense tissue
- Uses 'pre-puncture' technique, which provides topical anesthesia effect
- No collateral numbness enables immediate smile-line assessment
- Can replace 6 to 7 infiltrations with 1 or 2 comfortable injections
- Provides 60-90 minutes of profound pulpal, palatal, and gingival anesthesia (depending on type of anesthetic used)
- Zone of anesthesia covers canine to canine

30 gauge ½˝

AMSA Palatal

- Comfortable injection – ControlFlo eliminates the 'burst effect' in dense tissue
- Uses 'pre-puncture' technique, which provides topical anesthesia effect
- No collateral numbness enables immediate smile-line assessment
- Can replace 6 to 7 infiltrations with 1 or 2 comfortable injections
- Provides 60-90 minutes of profound pulpal, palatal, and gingival anesthesia (depending on type of anesthetic used)
- Zone of anesthesia covers 1st pre-molar to central incisor

30 gauge ½˝

Supra-Periosteal Infiltrations

- Flow rate control eliminates 'burst effect' so injection is more comfortable
- Start the injection in ControlFlo which creates anesthetic pathway in front of the needle

30 gauge 1˝

SNUGGIES
CUSTOM-FIT SENSOR SLEEVES

NEW LARGER SIZE 2.0 Custom-Fit Sensor Sleeves — #FLO-80223
Custom-Fit Sensor Sleeves — #FLO-80222
500/Box

Snuggies works with sensors of any size, shape, and thickness. Patients will love Snuggies because there's less loose plastic to gag on. Practitioners will love Snuggies because one-size fits-all, eliminating the need to buy and stock sleeves of many sizes. With Snuggies, you don't have to twist the sleeve around delicate sensor cords. To custom-fit Snuggies, just peel off the clear tab, then pull the white tab snug against the sensor.

OMNICHROMA *Flow*

One-Shade Flowable Composite

OMNICHROMA FLOW is the world's first one-shade flowable composite to esthetically match every color of tooth from A1 to D4 with a single shade of composite.

Tokuyama Dental's Smart Chromatic Technology, first implemented through the universal composite OMNICHROMA, has changed the way thousands of dentists practice restorative dentistry forever. Now, the same one-shade benefits are made available in a flowable consistency capable of addressing a wider range of restorative needs, saving clinicians even more time and money.

Outstanding Features

- Unprecedented shade matching
- High polishability
- High stain resistance
- Flexural and compressive strength suitable for a wide range of indications
- Low wear and abrasion
- Low polymerization shrinkage

Indications

- All cases of direct anterior and posterior restorations
- Cavity base or liner
- Repair of porcelain/composite

Since 1969, MCC Dental has been working closely with dental professionals to identify and deliver on their unique business requirements. Every practice is as unique as the professionals who run them, and we understand that a variety of solutions are needed to meet the needs of every dentist.

Inhibits 99% Microbial GROWTH*

New advancements in antimicrobial materials, combined with our industry leading design, make our **ASEPTX**® Sterilization centers the most advanced units on the market.

TAILORED COLLECTION

Since the early days at MCC, we have continually collaborated with dental professionals on the design of practice cabinets. The result of our efforts is the most efficient treatment station available. Quite simply, our Tailored Cabinets are industry leading. To maximize the functionality of our Tailored Cabinets, every corner, shelf and position has been transformed into useful space.

We also created the **TAILORED PLUS** Collection, a pre-designed 'off-the-shelf' solution that is a cost-effective alternative perfectly fitted to your budget and space.

MCC's new Signature Collection Rear and Side is a celebration of craftsmanship, quality and design efficiency.

SIGNATURE COLLECTION

Inspired by a half century of craftsmanship, quality and design efficiency, MCC's new Signature Collection ushers in a new era in dental cabinets for dental office environments. The Signature Collection embraces the best of the Classics line – supreme functionality, solidity and storage space but takes things one step further with a new generosity in storage space.

We are Leaders in CUSTOM dental cabinetry

MCC 15 YEAR WARRANTY

At MCC Dental, we stand behind our products with the 15-year casework limited warranty. We want every MCC Dental customer to be satisfied and covered for a long time because we believe that our cabinets are built to last, with a craftsmanship and passion that distinguish us from our competitors. ***Visit us at www.mccdental.com***
